Serverless testing is NOT hard

Accueil   /   Montréal 2023   /   Sessions

- "I don't use AWS Lambda because it's hard to test"
- "I'm mocking S3 so it's not a real test"
- "The feedback loop is terrible, the developer experience is awful"

Well well well, that's not true!

In this presentation, we will address those common beliefs by providing production ready examples.
